SEWING PARLOR AND FABRIC BOUTIQUE

CLARET CUP

AN APPLIQUE KIT

Instructions, templates, and measurements
to create your own wall hanging.

Finished size: 9" x 9"

NO. 2507

1. Trace all the individual parts of the design onto the release paper of the fusible web. Select fabric for all the pieces of the pattern.
2. Use an iron, on wool setting, to apply the traced fusible web to the wrong side of the fabric and cut out the shapes.
3. Remove the release paper and determine where to place the different pieces on a 9" square background fabric.
NOTE: The pattern is an INVERSE image of the finished quilt.
4. Once you are pleased with the placement of all the pieces, iron them into place.
5. Sew around the edges of each appliqué piece to secure in place. You may wish to experiment with your favorite decorative stitches. *** If you want to experiment with free-motion quilting, wait until after the quilt sandwich has been made to do this step.***
6. When the appliqué is complete, press the block on the wrong side of the fabric and trim to a 9" square.
